Street Furniture Club. Practical and functional. High quality design. We love to design street furniture. We believe in what we do. Today city presents many challenges for architecture. Bundook designs 'nocturnal beasts', street furniture shaped like magical creatures. #design. This collection can produce heat and light, as well as function as loudspeakers, without using electricity. Street furniture (67 articles). #readers #design. 15,000 views. The street furniture designing is a real art. Our architects and engineers try to look at the world in a fresh way. ZANO Street Furniture represents a combination of passion, skills and ideas converted into finished products. While designing we consider every little thing – model utility, materials, economics, dimensions, shape, appearance and style. Our realizations will enable you to create original combinations in public environments and attract attention. Materials.
